Explore What LifeTrack Offers

LifeTrack is built to help students manage school, productivity, wellness, and career preparation in one place. Below is a closer look at the categories and resources available through our platform.

Academic

Academic resources are designed to help students stay organized in class, prepare for exams, and build better study habits throughout the semester.

Study Guide

A step by step workflow for building study guides before exams.

Note Taking Template

A clean note taking template for lectures and readings.

Flashcard Template

A simple flashcard template for key terms and concepts.

Productivity

Productivity resources help students plan projects, manage time, and reduce distractions so they can stay focused on what matters most.

Project Planning Template

A template that breaks a project into milestones and tasks.

Weekly Planning Module

A module that helps plan the week and prioritize tasks.

Distraction Control Tips

Tips to reduce distractions while working or studying.

Wellness

Wellness resources support students in managing stress, maintaining healthier routines, and taking time to check in with themselves during busy weeks.

Breathing Reset Guide

Sleep Routine Workflow

Khaterina Sengchareune - Team Lead

Will Brust - Front-End Engineer

Lasiru - Front-End Engineer

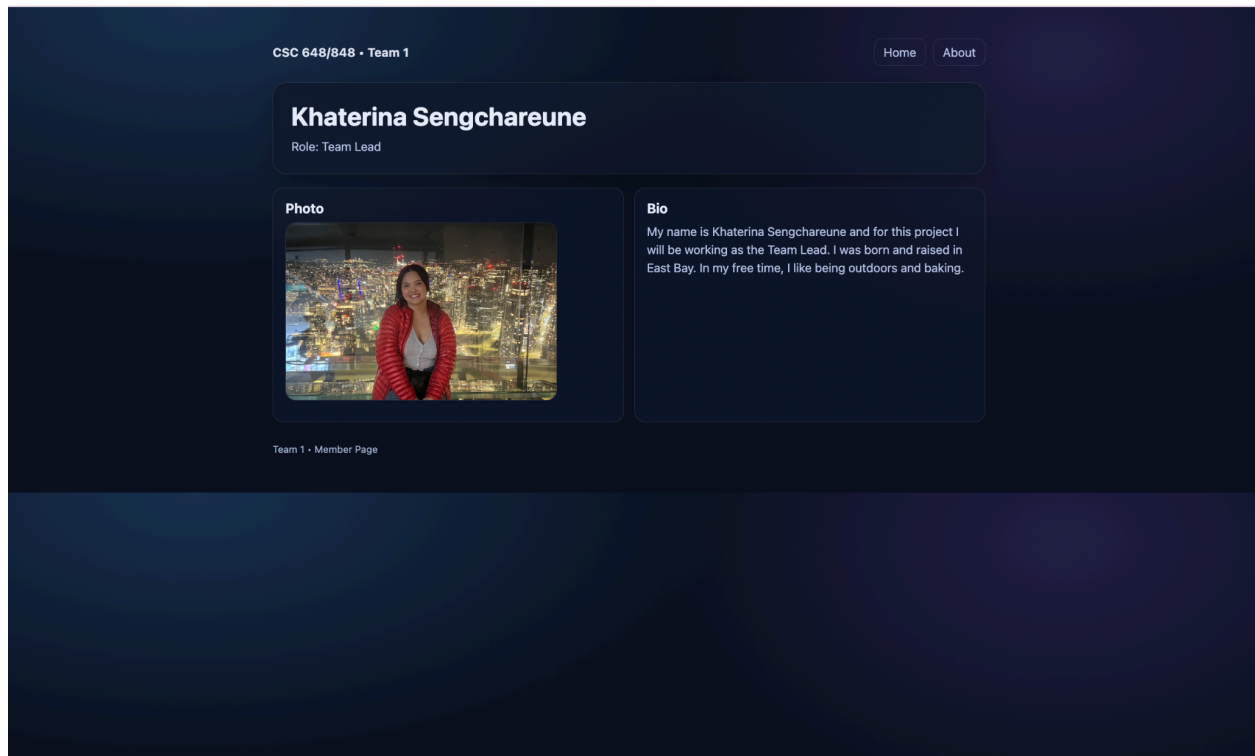

John Carlo Naranja - Back-End Engineer

Mohit - Database Engineer

Alex Hernandez - Back-End Engineer

Team 1 • About Page

TEAM MEMBERS INDIVIDUAL PAGES:

Will Brust

Role: Front-End Engineer

Photo

Bio

My name is Will Brust and for this project I will be working as a Front-End Engineer. Born and raised in the Bay Area, I have also lived in Santa Barbara, L.A. and San Diego. Currently I work part time as a caretaker and go to school to complete a degree in CS. In my free time I enjoy playing around with my 3D printer, painting and dialing in settings on my gaming PC to make the most out of RTX 5070.

Mohit Kumar

Role: Database Engineer

About Me

Hello, I am Mohit Kumar! I am the team's Database Engineer. I am currently a senior at San Francisco State University, majoring in Computer Science and minoring in Data Science. I love to watch movies, anime, and play video games. I also enjoy listening to music and playing different instruments. In this photo I am with my girlfriend.

Oreo!

This is my dog Oreo! He is a 6 month old Chihuahua and Frenchie mix. I've always loved animals, and I want to have more dogs and bunnies in the future. Oreo is my first dog ever, and I love him so much. He is very playful and loves to cuddle. A unique thing about him is that he has heterochromia, which means his eyes are two different colors. One eye is blue and the other is brown.

Cars, Cars, Cars!

Another thing about me is that I love cars! My friends and I like going on mountain drives and going to car meets. One of the reasons I went into CS is so that I can afford a bunch of nice cars and project cars in the future. My car is the black one and my friend's car is the white one. We are both working on them and have done a ton of mods to them.

Lasiru Weerasuriya

Role: Front-End Engineer

Photo

Fun fact: I'm usually down for the beach, a good playlist, and a clean sunset view

Bio

Hey, I'm Lasiru. I'm one of the frontend engineers on this project. When I'm not coding, you'll probably find me surfing, playing guitar, or on the basketball court. I like mixing creativity with tech, whether that's in music, design, or code.

John Carlo Naranja

Role: Back-End Engineer

Photo

Bio

My name is John Carlo Naranja, and I am working as a Back-End Engineer for this project.

I was born in San Francisco, and raised in Vallejo, California where I still live today. I currently attend San Francisco State University with a major in Computer Science. I used to work at a small pizza shop in Napa County, before quitting to focus on being a full-time student.

I enjoy playing video games, reading, and creative writing in my free time. I also plan on picking up drawing and digital art once I have more time after graduation.

Alex Hernandez

Role: Github Master

Photo

Bio

My name is Alex Hernandez, and I am working as the Github Master for this project. I'm originally from the Bay Area, but lived in Connecticut/Washington/Hawaii/Guam during my time in the Navy. I started attending SFSU after I separated and the only thing I miss about my time in is the food in Hawaii and Guam. Some of my hobbies include hiking with my dog, reading crime novels, and watching basketball.

PRIVACY POLICY

LifeTrack

Privacy Policy

Last updated: April 2026 · CSC 648-848 Spring 2026 · Team 1

What Data We Collect

Account Information

Items, email address, and password. Passwords are stored as a secure bcrypt hash — never in plaintext.

Academic Data

Courses, grades, and GPA entered by the user for progress tracking.

Goals and Milestones

Personal goals, milestones, and project progress created within the platform.

Profile Photo

An optional profile image uploaded by the user.

Usage Data

Basic interaction data used to improve the platform experience.

Why We Collect It

To personalize your dashboard and surface resources relevant to your academic profile.

To track your progress over time and generate reports on your goals and milestones.

Who Can See Your Data

You

You always have full access to your own data.

Administrators

Platform admins may access data for moderation and support purposes only.

No Third Parties

We do not sell, share, or transfer your data to any third parties — ever.

How We Protect Your Data

All passwords are hashed using bcrypt before being stored — plaintext passwords never exist in the database.

JWT authentication is enforced on all protected routes, with short-lived access tokens and revocable refresh tokens.

Admin access to other users' data is role-restricted and cannot be accessed through standard user accounts.

Your Rights

You can view and edit your own profile and personal information at any time.

You can delete your account and all associated data upon request.

You can request a password reset at any time using your registered email or security questions.

Have questions or concerns about your privacy? Contact our team directly.

khaterina@gmail.com

Interview Prep Workflow

A step-by-step way to get ready for an interview. Work through each one and check it off when you're done.

6

Total Steps

0

Done

6

Remaining

☐ Research the Company

- Check their website, mission, and any recent news
- Look up your interviewer on LinkedIn if you can
- Know 1 or 2 things that make you want to work there

☐ Review Your Resume

- Read every line out loud before you go in
- Be ready to explain any project or job listed
- Know which 2 or 3 experiences you'll talk about most

☐ Prepare Stories

- Pick 3 to 5 real stories from school or work
- Use STAR format: **Situation, Task, Action, Result**
- Cover: a challenge solved, something learned fast, a team experience

☐ Practice Questions

- Say your answers out loud, not just in your head
- Common ones: about yourself, why this company, a challenge you handled
- Practice with a friend or record yourself on your phone

☐ Questions to Ask

- Prepare 2 or 3 questions in advance
- Good topics: team culture, day-to-day work, current projects
- Not asking anything makes you look disinterested

☐ Follow Up

- Send a thank-you email within 24 hours
- Mention one specific thing from the conversation
- Keep it short, 3 to 5 sentences is enough

 khaterina

Focus Guide

Quick tips to reset, focus, and get back on track. Read through each one and check it off after you've tried it.

6

Total Tips

0

Tried

6

Remaining

☐ 60-Second Breathing Reset

- Breathe in for 4 counts
- Hold for 4 counts
- Breathe out for 6 counts
- Repeat 4 times
- Try it before studying or after something stressful

☐ 5-Minute Focus Reset

- Step away from your screen for 5 minutes
- Stretch, get water, or look out a window
- Don't check your phone during the break
- When you sit back down, write one thing to start with

☐ Remove Distractions

- Put your phone across the room or face down
- Close any tabs you don't need right now
- Use a site blocker like Cold Turkey if needed
- Let people around you know you need quiet time

☐ One Small Next Step

- Pick the smallest thing you can do right now
- Not "finish the project", just "open the file"
- Not "study for the exam", just "read the first page"
- Getting started is usually the hardest part

☐ Study Sprint Tips

- Work for 25 minutes, then take a 5-minute break
- After 4 rounds, take a longer break (15 to 20 minutes)
- Don't multitask during sprints
- Use the timer on the Studying page to keep track

☐ When to Take a Break

- You've re-read the same paragraph 3 times
- You can't remember what you just read
- You feel tense or your eyes are strained
- Take a real break, not a "scroll your phone" break

Breathing Reset Guide

Quick breathing exercises to reduce stress and reset your focus. Try the interactive exercise below or work through the techniques at your own pace.

Interactive Breathing Exercise

Click the circle to start. Follow the instructions as it expands and contracts.

Start

Click the circle to begin a 4-4-6 breathing cycle

5

Total Techniques

0

Tried

5

Remaining

☐ Box Breathing (4-4-4-4)

- Inhale slowly for 4 counts
- Hold your breath for 4 counts
- Exhale slowly for 4 counts
- Hold for 4 counts before the next breath
- Repeat 4-6 times — great before an exam or presentation

☐ 4-7-8 Relaxing Breath

- Inhale quietly through your nose for 4 counts
- Hold your breath for 7 counts
- Exhale completely through your mouth for 8 counts
- Repeat 3-4 times
- Best used before sleep or when feeling anxious

☐ Diaphragmatic Breathing

- Place one hand on your chest, one on your stomach
- Breathe in so your stomach rises but chest stays still
- Exhale slowly and feel your stomach fall
- Do this for 5-10 minutes when stressed
- Helps activate your body's natural calming response

☐ Alternate Nostril Breathing

- Close your right nostril and inhale through the left
- Close both, hold briefly
- Release the right nostril and exhale through it
- Inhale through the right, then switch to exhale through the left
- Repeat for 5 cycles — helps balance and calm the mind

☐ Quick Reset (1 Minute)

- Take one very deep breath in through your nose
- Hold for 2 counts
- Exhale slowly and fully through your mouth
- Repeat 5 times — takes under 60 seconds
- Use this between classes, before a meeting, or mid-study

Study Guide Workflow

A step-by-step workflow for building study guides before exams. Work through each step and check it off as you go.

6

Total Steps

0

Done

6

Remaining

☐ Gather Your Materials

- Collect all lecture notes, slides, and readings
- Find past exams or practice questions if available
- Check the syllabus for topics and learning objectives
- Organize everything by topic or week

☐ Create a Topic Outline

- List the main topics that will be on the exam
- Break each topic into subtopics and key concepts
- Mark which areas you feel least confident about
- Use this outline as your guide for what to cover

☐ Summarize Key Concepts

- Write a 2–3 sentence summary for each major topic
- Use your own words — don't copy from slides
- Include definitions, formulas, or key terms
- If you can't summarize it, you may need to review it more

☐ Apply Active Recall

- Cover your notes and try to recall key points from memory
- Quiz yourself using questions from your outline
- Use flashcards for definitions and formulas
- Focus extra time on topics you struggle to recall

☐ Practice with Past Exams

- Work through past exam questions under timed conditions
- Don't look at the answers until you've tried each question
- Review wrong answers and understand why you missed them
- Repeat questions you got wrong a second time later

☐ Final Review Day

- Do a light review of your full outline — don't cram new material
- Re-read your summaries for the trickiest topics
- Get at least 7–8 hours of sleep the night before
- Eat a good meal and arrive to the exam early

Wellness

Campus Map

Portfolio Checklist

A simple checklist to make sure your portfolio has the basics covered. Check things off as you add them.

6

Total Items

0

Done

6

Remaining

☐ About Section

- Who you are and what you study
- What you're interested in or what you've worked on
- What kind of role you're looking for

☐ Projects

- 2 or 3 projects you're actually proud of
- What you built and what tech you used
- Link to the repo or a live demo

☐ Resume Link

- Upload as a PDF
- Link it somewhere obvious, not buried in the footer
- Label it clearly so people know what it is

☐ Contact Info

- Email at minimum
- A contact form is a nice bonus
- Make it easy to spot on the page

☐ GitHub Link

- Link to your public GitHub profile
- Pin your best repos to the top
- Keep recent commits visible so it doesn't look inactive

☐ Mobile Check

- Open it on your phone and check the layout
- Check fonts, buttons, and images at mobile size
- Fix anything broken before you share it
